INDICT JUDGE, 7 MAGISTRATES

Knox County Action Over Handling of Road Funds

Charge Officials Accepted
Checks For Expenses

Alleged Voting of Illegal
Claims is Included

IRREGULARITY IS DENIED

Barbourville, Ky. Sept. 25.—Indictments were returned in the Knox Circuit Court to-day against County Judge T. G. Hammons and seven magistrates as follows: V. D. Jackson, Lewis Monholland, D. B. Detherage, D. B. Fortney, I. T. Mills, C. Cobb and Leroy Peace.

The charges are in connection with the handling of the proceeds of a recent \$200,000 bond issue voted in Knox county for building of roads. Magistrate Esom McKeehan was the only member of the Fiscal Court to escape indictment. The indictments included from one to four counts in each instance. One of the charges against the magistrates it accepting checks for \$25 each from a Terre Haute, Ind., firm to cover traveling expenses to that point to inspect machinery. Other charges are for voting alleged illegal claims in connection with disbursement of road funds and for hiring their own teams in the construction of roads.

The grand jury, under instructions from Judge Sampson, has been conducting an investigation of the road building situation for two weeks, but the returning of indictments at the closing session of court to-day came as a surprise, as it was thought the matter had been dropped. The trials will come up in November. County Judge Hammons, in a statement, denied any irregularity in the handling of the road building situation, and stated that he wants an early trial. He alleges that charges were brought by certain parties who want the routes for the county highways to go in certain directions.

Louisville Contract

A contract for the construction of a portion of the Cumberland River road, let to a Louisville firm on a basis of 22½ per cent, on commission on money expended, was recently turned down by the State, and since has been let to a local bidder, who turned in the lowest bid.

An indictment was returned against Francis M. Rees for refusal to permit an inspection of books. This indictment has no connection with road building investigation. — Courier Journal.

The above appeared in the Courier Journal last Sunday, and as to its correctness, we have nothing to say, but we do say in the spirit of justice to all that we believe the Fiscal Court has been greatly abused, not so much to what the Grand Jury did, but what has been done and said to them in their deliberations as a body; many times the Fiscal Court would have done things that ought to have been done had they been let alone by the over zealous, those who wanted to dictate, not to advise as to how things should be done, not how they would like to see done, but they used their very strongest words to try to force the Court to build the roads in certain ways. Before the election on the question of the bond issue, the routes were laid out, and if the courts had gone on without being harassed by a peticular few, to-day, we would have been far along toward completion.

Some people have said more than they ought to have said, and, there are many things that could have been said that was not said of the Justice's of the peace and others; but have the Justice of the peace broken the precedent? Have they done any more than those who have preceded them? We think not, look over the past record, we believe that you will find that there has been some people who were as much connected with the affairs of the county as these men have been and that have done as much as they; we do not want to sling mud, neither are we going to say anything, that would reflect upon the fair name of our citizens, or the county; but we do say that moderation is the greatest thing in the world.

What has all these indictments

done for us? Have they helped us any? We say no, they have only served to besmirch the fair name of old Knox County, and to gain notoriety that is not of the best kind, it does not only make bad matters worse, but, it puts us in bad light before the world, the incitements against our County Officers will amount to nothing more than possibly a trial, and not a conviction will be had.

We have seen the most of the gentlemen, and they authorize to say that they are ready for trial, and that they do not intend to change their views upon matters or to recant one thing they have said or done; the regular routine of business will go right along in the future as it has in the past, and the Court will in due season, fix the routes of the pike roads to be built, and they will lay a levy adequate to meet the demands, and the same things that have been done will be lived up to that are right, and if any mistakes have been made they will be righted.

We are not taking the part of anyone in these matters, but we are giving our views about these matters and we believe that we are entitled to them.

It is our policy to not speak evil of anyone, if we cannot say something good, we will not say anything in this matter, and we will not go on record, as condemning any man, until his guilt is proven beyond a reasonable doubt, we do not know whether the members of the Fiscal Court have committed any crime or not, the only thing that we do know is that they are accused and when they are convicted, if they should be, we, then will be ready to stomp them as we would any other man in the county, but until then, we will say nothing.

A Mistake

We notice in the Louisville Herald, of last Sunday that Cale Williams, the Assessor of Knox County, was indicted by the Grand Jury, at the last session of court, which has just closed; this is not correct, Mr. Williams, is not indicted; he is only spoken of in the body of an indictment against some of the Justice who voted for a claim of Williams, against the county for extra work as Assessor for the county, which may be a mistake on the part of the Fiscal Court; but in the event that this is true, Mr. Williams is ready and willing to pay back to the county, the amount allowed together with the interest thereon from date of payment.

Hinkle

Myrtle, wife of George Hinkle, died at her home in Pennington Gap, Va., on Saturday, September 25th, with accurate indigestion. She once lived here, and was married to Geo. Hinkle several years ago and moved to that town where her husband lost his life while making an arrest.

The remains were brought here Sunday morning and interred in the City Cemetery, where the funeral was held by Rev. J. H. Blackburn. She was a member of the M. E. Church, having joined when she was young.

Mrs. Hinkle was the granddaughter of Hiram L. Jones, of this city. She leaves five children, some of whom are in the Odd Fellows Widow and Orphans home, alone in the world without father or mother to battle their way through life's uneven ways. We sympathize with these little ones, and hope that they will find friends that will be both father and mother to them.

KNOX COUNTY ROADS

To the County Judge and Magistrates of Knox County

Gentlemen:—It is so seldom that I trouble you with a speech that I feel confident your indulgence will lead you to read the following suggestion and give it just such attention as your own judgment may consider it entitled to.

I have lately had an opportunity to see and learn about the splendid efficiency and success, with which the Bell Officials and their helpers are carrying to rapid completion their turnpike roads. It is quite a surprising as well as an interesting thing to see the heavy expensive machinery they have and to what good purpose they are using it. The first thing we know the Bell County people will have their roads all done, so far as the County and State money holds out to pay for the number of miles that this money will build by careful and economic use.

When their work is done, ours of Knox County, will be scarcely commenced. This leads me to further reflection that perhaps it might be a sound business proposition for us Knox County people to wait until the Bell County road builders get their work done and then employ them by contract to build our roads. It won't be long to wait. They are getting along fast. Besides, as to waiting we are waiting anyhow. We have no reasonable progress such as can give to even our own County citizens confidence that our roads will ever be finished within any reasonable time. But besides our own County citizens, our neighbors of Bell County are entitled to consideration. They are entitled assurance that they will get as good roads from us as they are giving us. And, furthermore we are in trouble with the State.

Now, of course this is not the fault of any one person, but is due to lack of harmony among all. Each man is trying to do what he thinks is right. That is true. But, if he can't get the others to agree with him, his efforts and good intentions will amount to nothing.

The way the thing stands now, can we afford to promise anybody that it will ever be any better? Certainly not. No man can promise what other men will do, because they don't know.

But if we will limit our efforts to the single and sole question of whereabouts on the ground we want our roads to be placed (that is, the location of them) and not study about any other part of it, until the Bell County people get their roads finished, then the matter will at that time, stand thus: Here we are with our turnpikes located—we know exactly where they are to be made. And here stands a large and competent force of thoroughly experienced turnpike builders who have just finished Bell County's turnpikes. They have all kinds of expensive road-making machinery.

They have found out exactly what our roads ought to cost, because the material to be handled is much the same in Knox that it was in Bell. If they build the Knox Roads a very light profit will satisfy them, because the people cannot get the full benefit of their own roads until the roads of Knox are built. Also, they will already have their machinery and won't have to buy it new for

the Knox County job. Also they will have their mountains of limestone rock opened up, quarried into and can thus furnish the road material cheaper than anybody else can. And the experience and skill they have gained in making their own roads will make it possible for them to build our roads even quicker and cheaper than their own.

It seems like a plain business proposition that if the Bell county road builders do the work, we will have our roads quicker and cheaper and better built than by any other plan we can adopt.

They cannot afford to slight the work or delay it, for they themselves need good roads in Knox, and that as quickly as they can reasonably be made.

This method would also put in harmony with the State, for the State agents have endorsed all of Bell county's doings and if the same people build our roads the State would lose all of its present suspicion of us and would only need to have an inspector or two to see that the work done in Knox was of the same quality that the same men did for their own county.

If this plan should be adopted then it does seem that we ought to be able to have the locations made and agreed on and ready for the Bell County contractor to begin on our roads as soon as they finish theirs. But if not, then we would lose no time at all by waiting for the Bell county roads to be finished, for our whole time and energy up to that time would have been consumed in making the mere locations any way. And in case of failure, to agree on a location that the State will accept, we must at last have the location indicated by the State agent, for we are bound to get a location that they will accept before we can get the State money.

We would probably be able within a few days or few weeks from now to close a contract with the Bell county parties whereby they would agree, for a stipulated price satisfactory to all parties

to go to work on our road as soon as they get their own done. Up to that time we could employ our efforts in verifying locations until they are satisfactory to us and to the State. And if it shall turn out that we cannot even agree among ourselves on location that the State will also accept, then all that is left to do will be to let the State agents and Bell county's Engineers make a location for us.

It might be stipulated in the contract with the Bell county parties that they should employ Knox county men to do the principal bulk of the unskilled labor, and thus a large part of the road fund would be left in the pockets of the Knox county citizens.

Very respectfully,
R. L. Blakeman.

Petition Dismissed

On last Monday I dismissed the petition, asking for an election to be held in November, to ascertain whether or not, Knox County should go under a Commission form of government, for the following reasons:

First: because section 1851a, of the Kentucky Statute, sets fourth that the county must be laid off into three districts within thirty days from the time the act became effective.

Second: Because such election, should be called at a time when the County Officers are to be elected.

Third: Because it would create three new Offices in the county, at an expense to the county of \$600.00 per year.

Fourth: Because it would so effect the office of Justice of the peace, that it would be a burden to those who might hold that office, and good men would not ask to be elected to said office, and would cause that office to become worthless, and would not be a desirable position.

And for these and other like causes, the petition is dismissed, and the election will not be called.

MIGHT AS WELL NOT DO IT

It has been rumored that there will be opposition to Judge Sampson and Mr. Snyder, for the Office of Circuit Judge and Commonwealth's attorney for the 34th Judicial District. Well if there is any one that has that little sense, just let them go to it, we will give them the "Darnedest" skinning that any fellow ever got. We the Republican party do not intend to stand by and let anything like this occur; these men are the nominees of the Republican party, and this is our year to win in Kentucky, and we do not propose to stand idly by and let one of the nominees be defeated.

This is the time for a Republican victory, and we will have that as sure as there is an election, if we, as a party will only do our duty. So, "let no mans heart fail him because of them" we will fight the battle and the victory will be ours, for we believe that this is all a big bluff any way.

Wait A Minute

There has been a lot said about Pike Roads in Knox County, Ky., which has come with an aspiring and denouncing nature, and mostly from office aspirants, and for political purposes. It is true that Knox County is somewhat slow, but still she is ahead of many of the counties in the State, there are many counties that have not sold their bonds yet. Knox County has already contracted some of its road and the same is with the State Road commissioner for his approval; the Fiscal court has secured one Mr. McClure, of Cumberland Gap, Tennessee, as Chief Road Engineer, who we believe, to be a perfect gentleman, a splendid road man, the one who built the Government road from Middlesboro to Cumberland Gap, across Cumberland Mountain, and the county has also employed Mr. Thomas Hubbard, as County road Engineer, they now have an engineering force, and we hope by the 5th day of October, 1915, to have the surveying plotted, and a profile, ready for approval or rejection of about 27 miles, the line from Corbin to Bell County line; and just as soon as this is done, this line will be ready to advertise for construction. This line runs through Knox County and is on the "Dixie Highway" and if this is approved we will have the work started within four weeks.

It is true the Fiscal Court has had some trouble about the location of its roads, but they are now located so far as the Fiscal Court is concerned, and as soon as the survey is completed from Laurel to Bell County, they will complete the line from Clay to Whitley County; this work is progressing as fast as it can under the law, and no one has the authority or right to condemn the magistrates, or any member of the Fiscal Court; each member of the court has his rights, and should stand by his honest convictions, regardless party influences, or political trickery.

The question of a \$200,000,00 indebtedness, and how to get a hundred cents for every dollar into the roads of the county is not a child's job, and the citizens instead of criticizing, should encourage the court and help them arrive at a just conclusion.

The smoke will soon have cleared away, and the people will see and realize who was mistaken; and those who so insinuated and brow beaten the court, will in time understand all about the red tape that is attached to the road law, and will know something of trials and tribulations that the court has to undergo and will surely wake up, with open eyes, and wait a minute.

Your Obedient Servant,
Thos G. Hammons,
Knox County Fiscal Court.

REGARD FOR THE LAW.

Ignorance of the Law is no excuse and disregard of the Law is a crime. When Laws are so obvious as to afford excuses for non-compliance they should be changed, and the people have this right. "If your right hand offend you, cut it off," was no idle injunction, but means the offense should be removed rather than the mutilation of the member.

Our Tax Laws are distasteful and detrimental, but the remedy should be to amend them instead of allowing them to undermine the morals of the people by openly disregarding them.

The successful evasion of one Law may encourage the violation of others and in time breed a contempt for all Laws.

While every citizen owes obedience to the Laws, the Laws should be made fair and equal to every citizen.

The Tax Laws are neither fair nor equal and are productive of deceit and dishonor and if for no other reason than this should be changed.

UNIFORM TAXATION.

Property differs so greatly in character and earning power it has always been impossible to tax the various kinds uniformly. Every attempt to tax movable property the same as immovable property has failed and will always fail. "Two wrongs do not make a right," and when assessors find it impossible to discover the ownership of movable property and undertake to square things by lowering the assessment of immovable property, there is no right or justice in it and everybody suffers in mind and matter. The more stringent the Law to uncover movable property the faster it moves and hides, and this fact is so well established the assessors in most counties let movable property go by default. So-called Uniform taxation is a delusion and a snare. It may suffice to fool the ignorant, but the knowing ones just laugh at it. This is rough on the poor man whose all is in sight and immovable, and is also tough on the rich man who defies the law and hides his wealth from the assessor, for he knows he is doubly guilty in saving himself at the expense of his less fortunate neighbor.

EQUITABLE TAXATION.

The differences in property call for differences in taxation just as "one star differs from another," and yet all the stars and all the property serve their purposes. The man who puts his money in Securities issued on property already taxed and paying more taxes because of the improvements justified by the man's money is just as useful a citizen as the man who puts his money in lands and houses; but when the first man objects to giving up the greater part of the earnings on his securities, issued on property already taxed, he is looked upon as a tax dodger, and the man with the houses and lands who cannot so readily escape denounces a tax system which seems so unfair. Ask this man to surrender a half to three fourths of the income from his houses and lands and there would be another tale. The revenue of the first man is limited, while that of the other is unlimited, and yet there are people who cannot see the distinction. Equitable taxation is based on the earning power of all property, in just proportion, and if any partiality is shown it should be in favor of the man who risks his money to improve houses and lands owned by others, which may depreciate, but cannot fly away.

TAX AMENDMENT.

The Tax Amendment was carried by thirty thousand majority two years ago, but because the Secretary of State failed to advertise it ninety instead of sixty days before the election, as the Constitution requires, it must be voted on again at the November Election. The welfare of the State demands the re-adoption of this important measure, and every fair minded citizen should vote for it.

KENTUCKY NEEDS

A good many things to place the State in the rank she deserves in the march of prosperity, but when sifted down the greatest need of all is a new Tax System that will attract instead of repel Capital, which guarantees cheap money for the improvement of farms and development of local industries. Although one of the oldest States, centrally located and with marvelous natural advantages, other and less favored States have outstripped us, and, as someone has aptly said, "Kentucky is an island of comparative poverty surrounded by a Sea of industrial prosperity." And why? The answer is because of our repellent Tax System. Equitable taxation means cheap money. Easy money means improvement and development. Industrial enterprise keeps the people at home and increases the population. More people means more consumers of our home products. Close markets means good prices, and all of this has been retarded because some wise acres borrowed a so-called Uniform Tax Law from another State which had been striving to get rid of it for forty years and which shows that an intolerant politician may not always be a tolerable patriot, or Kentucky would not have been throttled in the way she has been.

UNCERTAIN HEART ACTION ALARMING

Mrs. W. O. Howell Says Tanlac Relieved Her of Palpitation.

Louisville, Ky., Sept. 30---Mrs. W. O. Howell, wife of the agent for the Louisville Carriage Co., at the Seelbach Hotel, who lives at 619 South Jackson street, this city, is one of the most ardent believers in the peerless preparation, is shown by a recent statement she made of the benefits she derived from it.

"I was weak and nervous and dizzy," she said "any sudden noise made my heart beat so fast it frightened me. I had nervous headaches. Whenever I walked upstairs it left me almost exhausted.

"My stomach was weak and my food did not agree with me. If I ate anything solid it made me miserable. I was told that I had catarrh of the stomach, but the medicines I took did me no good until friends suggested Tanlac to me. I'm glad now that I took their advice.

"It was almost no time until I felt better, and now I can eat whatever I please. I owe it all to Tanlac. My nerves are in good shape again, and I no longer have palpitation of the heart. Tanlac is the only medicine that ever helped me. I can't say too much in praise of it.

Tanlac is now being sold in Barbourville at the Herndon Drug Co's store. adv

Republican Speaking

Thursday, Judge L. L. Walker, Republican nominee for Lieut. Governor, addressed a large audience at the court house, while the weather was very disagreeable on account of a constant down pour of rain the audience represented a greater portion of the county, and Judge Walker was greeted with warm applause. He presented a very strong argument and predicted a Republican victory this fall. Judge Walker is a very able speaker, he went right to the subject matter, and without mercy, skinned the Democratic Administration, both, in State and Nation.

Decker-Golden

On last Wednesday at one o'clock, Mr. James Golden, and Miss Ruth Decker, were married at the First Methodist Church, and at once proceeded on their way to Ann Arbor Mich., where Mr. Golden will finish his course in law, when they will return to Barbourville, where they will make their future home.

Miss Decker is the accomplished daughter of A. M. Decker, who is well known, having been on the road as a traveling salesman for more than thirty years with the same people, her mother was a daughter of the late Col. W. W. Sawyer, one of the pioneers of Knox County, she is of a sweet disposition and we believe that she will make an ideal wife.

Mr. Golden is a son of Captain B. B. Golden, one of Kentucky's best lawyers, he is the Grandson of the late James W. Davis, who once represented this district in the Legislative Hall of Kentucky, he is a promising young attorney and will some day make his mark in the world. We hasten to congratulate these young people, on their preference, as well as to congratulate the families on both sides especially, Mr. Decker, all of his family seems to be inclined to practice the profession of law, which is a most honorable calling.

Sometime ago we had a meeting right here in the City, and had a banquet, and asked T. W. Minton & son, to come here and bring their plant, and manufacture our Hickory timber into such articles as would be salable; and we promised them that they should have our hearty support; Have we kept our word? Will we do it? Let us tell everyone that we have a market for any kind of hickory timber, and let the farmer and land owner bring his timber to Mr. Minton, where they will get the highest prices that can be had anywhere.

See their advertisement, in this issue, and see if you have not just lots of such timber as that they ask for.

What kind of roofing shall I buy?
The General says: You can buy a cheap unguaranteed roofing and save a few dollars in initial cost---or you can pay this slight difference and get a roofing guaranteed by the world's largest manufacturer of roofing and building papers. The final cost is what counts and you'll find it cheaper in the long run to buy

Certain-teed Roofing

This roofing is the highest quality possible to make and it is guaranteed 5, 10 or 15 years, for 1, 2 or 3 ply respectively. When once laid, **Certain-teed** must remain intact at least for the period of the guarantee and the guarantee is a definite insurance against all roofing trouble.

Roofing that is cheaper than **Certain-teed** is cheaper in quality and is not guaranteed by a big mill and best responsibility. If the cheap roof falls down you will have to pay the double expense of buying a new roof all over again. **Certain-teed** Roofing is for sale by dealers everywhere at reasonable prices.

OLDER BUT STRONGER

To be healthy at seventy, prepare at forty, is sound advice, because in the strength of middle life we too often forget that neglected colds, or careless treatment of slight aches and pains, simply undermine strength and bring chronic weakness for later years.

To be stronger when older, keep your blood pure and rich and active with the strength-building and blood-nourishing properties of Scott's Emulsion which is a food, a tonic and a medicine to keep your blood rich, alleviate rheumatism and avoid sickness. No alcohol in Scott's.

Scott & Bowne, Bloomfield, N. J.

EDUCATIONAL

The following aims were placed in the hands of Knox County teachers some time ago:

- 1 The enrollment of every available child in the district.
- 2 The teacher to study the State Course of Study and have the daily program on the wall.
- 3 That each teacher read at least one educational journal and any three of the following books during the term: Education for Efficiency, Halleck's American Literature, Seeley's History of Education, Growing a Life, Self Cultivation in English, Ethical and Moral Instruction in Schools.
- 4 School buildings and grounds to be kept clean during the term.
- 5 A meeting of the citizens to be held monthly at the school house.
- 6 The teacher to visit the parents at least twice during the term.
- 7 That a District Library be established in each district or additional books added to the library already established.
- 8 The teacher to organize a Literay Society to be held every Friday afternoon.
- 9 The teacher to plan and prepare every lesson.
- 10 The teacher to be out on the play ground and supervise the games.

Teachers who make good nine of the above aims will receive \$14.00 extra on the last check. Teachers who make good seven of the above aims will receive \$7.00 extra on the last check.

A good number of teachers seem to be making good the desired number of aims, thus far visited.
